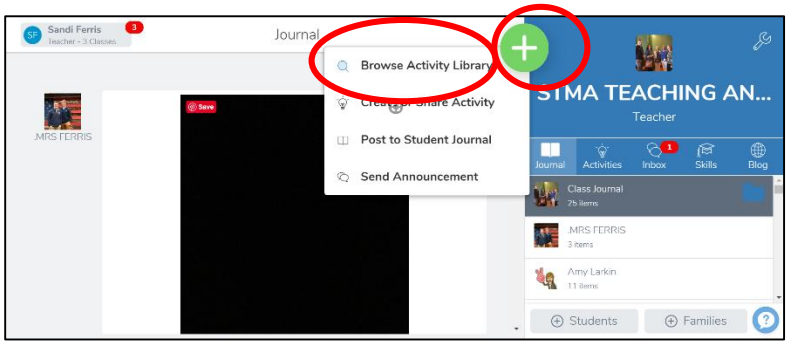
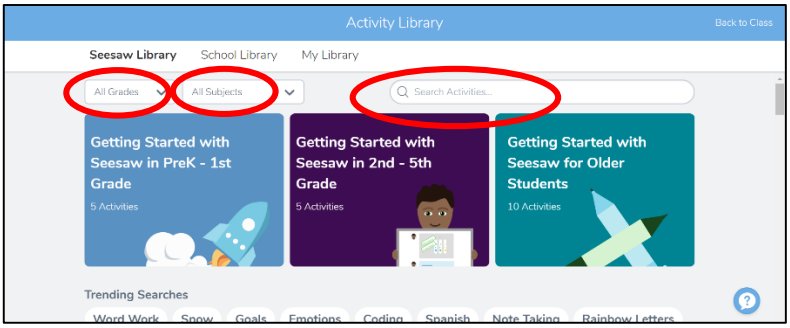
Assigning an Activity for the Students to Complete – Feb 2019



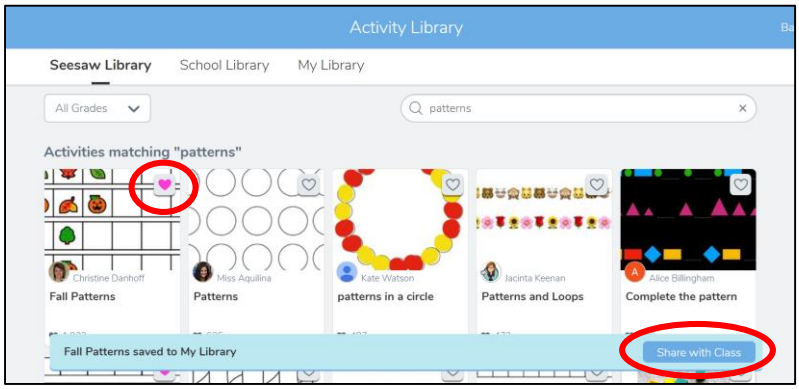
Click on the Green Plus

Then choose "Browse Activity Library"

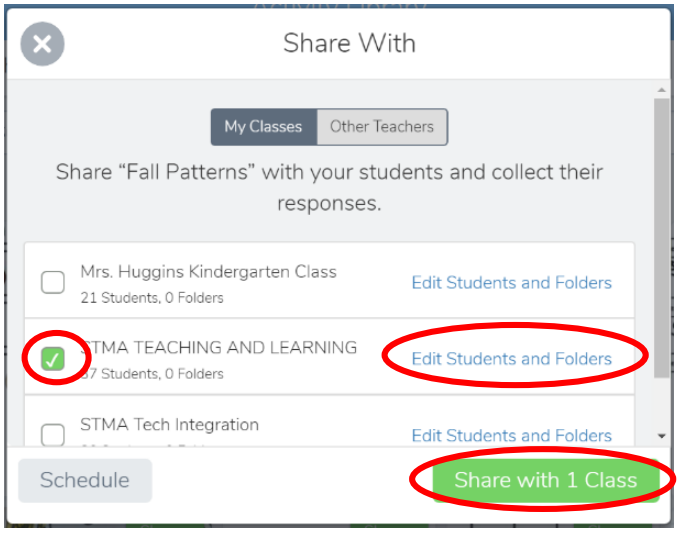


This will allow you to search the Seesaw Library of activities.

You can use the drop-down menu to search by Grade, by Subject or by searching for a topic.



When you find an activity that you want to have the students complete click on the heart in the upper right corner. This saves it to your library. You can click on "Share with Class" now or share it later.



Choose who you would like to share it with. In this example I have more that one class; I can select the whole class by checking the box in front of the class name.

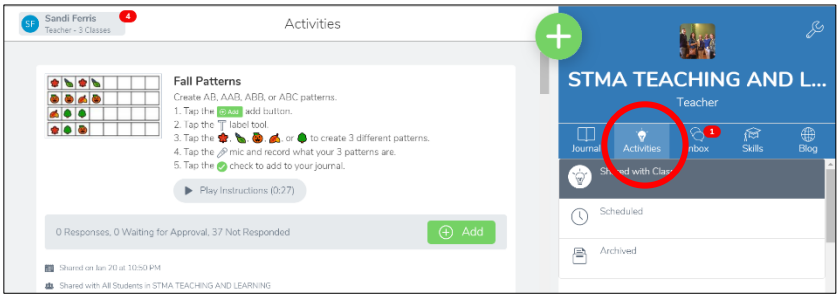
You can also click on "Edit Students and Folders" to assign it to only one or several students. Click on Share with Class button

This window will be displayed saying you have shared an activity.

You can view it in your class

Or

Close this window with the X



The activity will then show up in the your Activities

Click on the Activities Tab to view all the activities that you have assigned to the class
