

Guiding Questions for the Frame of Reference

Each Thinking Map answers one or two basic guiding questions. This **Multi-Flow Map** answers the questions, “What causes a meal to be nutritious? What are the benefits of a nutritious meal?”

FRAME OF REFERENCE

There are multiple **Guiding Questions for the Frame of Reference** around any map. Students do not need to answer all of the questions for every map, but they do need to think about which ones are most important to their maps. **Go to the Frame of Reference course in the online Training for more information.**
